[YOUR FEEDBACK](#)

Welcome and thank you for purchasing from [Loopmasters](#). We are proud to present this series of re-mastered sessions from Horseman, which originally formed the complete Drumdrops in Dub volume 2 collection.

These sessions were recorded through full vintage neve consoles, using only authentic valve equipment including Vintage Orban and Grampian Spring reverbs, and are now available as 24 Bit Multi-track packs and Loop packs.

DROPS IN DUB VOL.2

Horseman needs no introduction! His hard-hitting beats have backed the best Reggae artists in the business; Max Romeo, Little Roy and many more.

Famous for his precision timing and fearsome delivery. Having worked alongside producers and engineers like Jah Shaka and Mad Professor has guaranteed his status both in the studio and on stage. Horeseman rips into his favourite grooves from old Studio One classics to heavyweight Dub. The percussion is played by Norman Grant (Twinkle Brothers) and Tuca Rainbow.

If you're looking for live Reggae and Dub beats look no further!

ABOUT DRUMDROPS

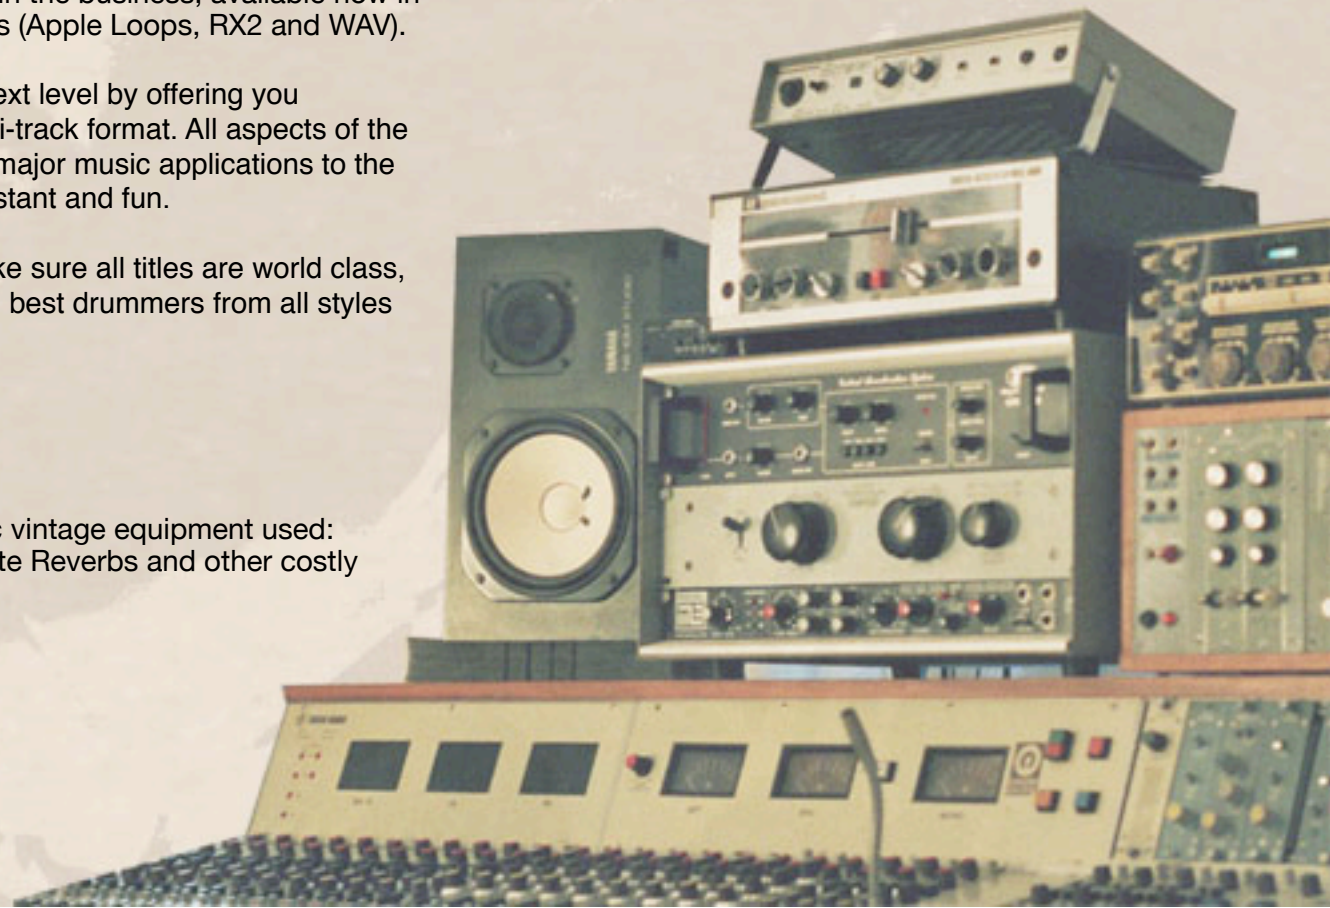

Specialising in Drum-Tracks, Loops and Samples for Songwriters Musicians, Producers and Re-mixers. Drumdrops Products are endorsed by some of the most respected names in the business. An inspired and ground breaking collection of authentic drum samples played by some of the most legendary names in the business, available now in 24 Bit multi-track versions and multi-format loops packs (Apple Loops, RX2 and WAV).

[Drumdrops](#) takes the original sampling concept to the next level by offering you professional Tempo Mapped drum performances in Multi-track format. All aspects of the mix can be adjusted. The tempo map feature slaves all major music applications to the beat, making extra Midi programming or overdubbing instant and fun.

Great care and attention to detail has been taken to make sure all titles are world class, user friendly and inspirational. Our aim is to capture the best drummers from all styles and types of music.

THE SOUND

If you're really into sound you will appreciate the classic vintage equipment used: Pultec, Neve, Fairchild, Telefunken, spring and EMT Plate Reverbs and other costly real time effects.

THE FORMATS

There are 2 options to select from when purchasing this product:

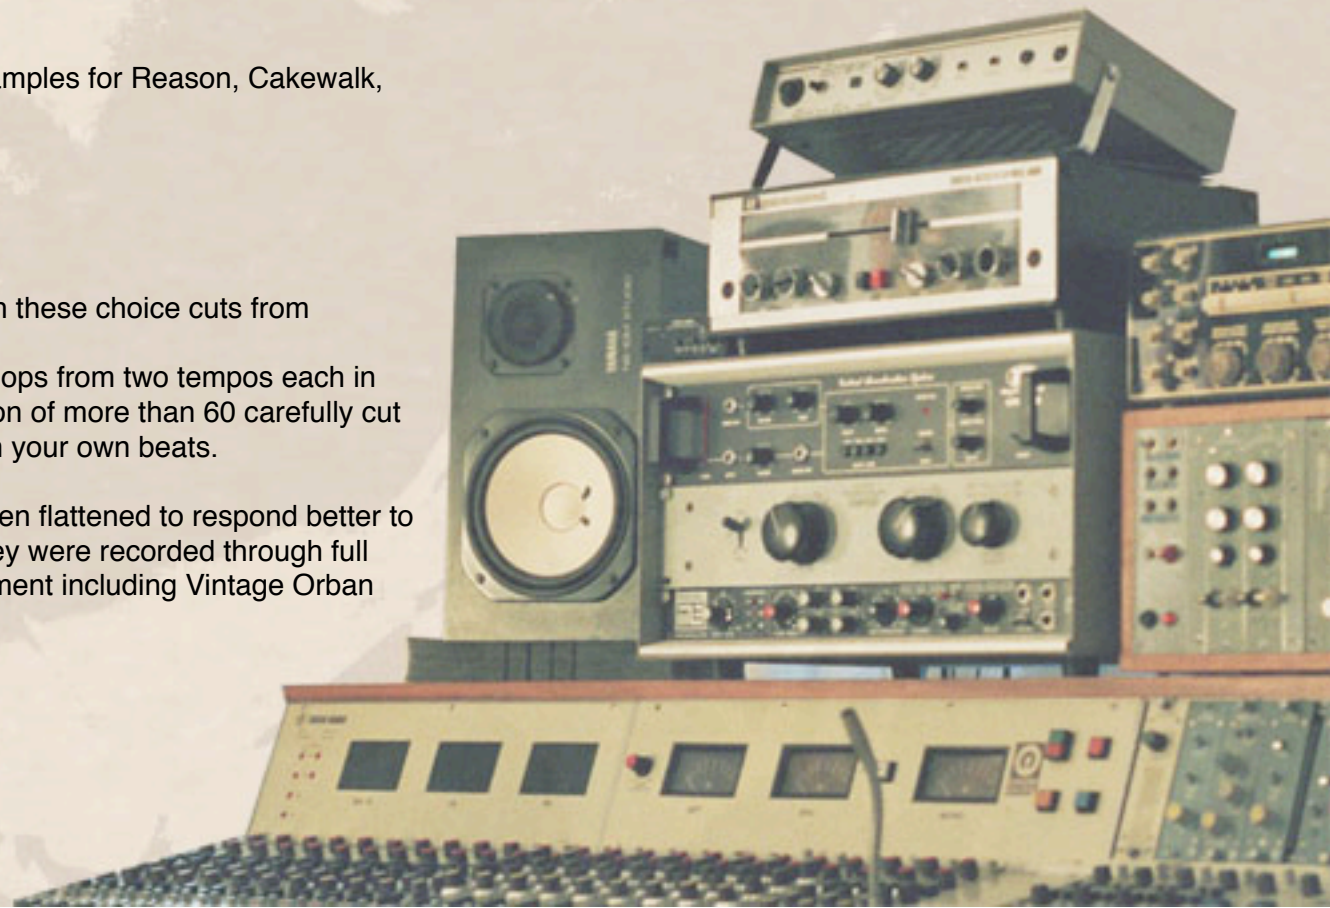

- The Multi-Track pack includes separate Kick, Snare, Hat, Toms, Overheads, Percussion and FX channels. Also includes tempo-mapped ProTools LE, Logic 6 and Cubase SE session files and tempo maps.
- The Loop pack contains easy to load loops and samples for Reason, Cakewalk, Sonar, Soft Samplers or Ableton Live.

LOOP PACKS

In the Loop packs...all the hard work has been done with these choice cuts from Horseman!

The packs consist of carefully selected batches of 40 Loops from two tempos each in Wav, Rex2 and Apple Loop formats, alongside a selection of more than 60 carefully cut one-shot drum samples (Wav), ready for you to program your own beats.

The loops have been edited so that the tempos have been flattened to respond better to loop playing software. As with the Multi-Track Packs they were recorded through full vintage neve consoles using only authentic valve equipment including Vintage Orban and Grampian Spring reverbs.

CONTINUED...

About the included file formats:

- RX2 files are compatible with: ProTools 6, Propellerhead Reason, Emagic Logic Audio 6, Emagic EXS24 mk2, Emagic EXS24, Steinberg Cubase VST 5.x, Steinberg Cubase SX, Steinberg Nuendo 2.0 Steinberg Halion, MOTU Digital Performer 4, MOTU Mach 5, Native Instruments Kontakt 1.5, Native Instruments Intakt, Native Instruments Kompakt, Native Instruments Battery, Bitheadz Unity Session Bitheads AS-1, Cakewalk Project 5, IK Multimedia Sampletank, Mixman Studio, AKAI S6000/S5000 and the AKAI Z-SERIES.
- Thanks to the Apple Loops file format, the loops will always fit in perfectly with your song's tempo. Apple Loops files are easy to use and locate thanks to programmed tags. In GarageBand, simply drag the loops to a 'Real Instrument' track and start jamming. Users of other audio software packages can enjoy the loops, too, as Apple Loops work in any application that supports AIFF files.
- WAV files are provided for all other software and hardware application. These are compatible with any software or hardware that supports 16 Bit Rx2, Wav or Apple Loops files.

MULTI-TRACK PACKS

The Multi track versions are classic full-length drum tracks from the original Drops In Dub sessions, featuring separate Kick, Snare, Hat, Toms, Overheads, Percussion, FX and Mono Room tracks all in professional 24 bit 44.1khz AIFF audio.

Organized by Bpm in convenient folders, each containing the separate Audio files and a Midi file of the tempo map, along with the template Cubase SE, Logic or ProTools LE Sequencer files. The Multi-track pack also contains the respective Wav loops from the Loop pack version of these tempo groups, (Note only the Wav audio is supplied on these). These packs are also dual format for Mac and PC.

The multi-track sessions were all recorded through full vintage Neve consoles using only authentic valve equipment including Vintage Orban and Grampian Spring reverbs.

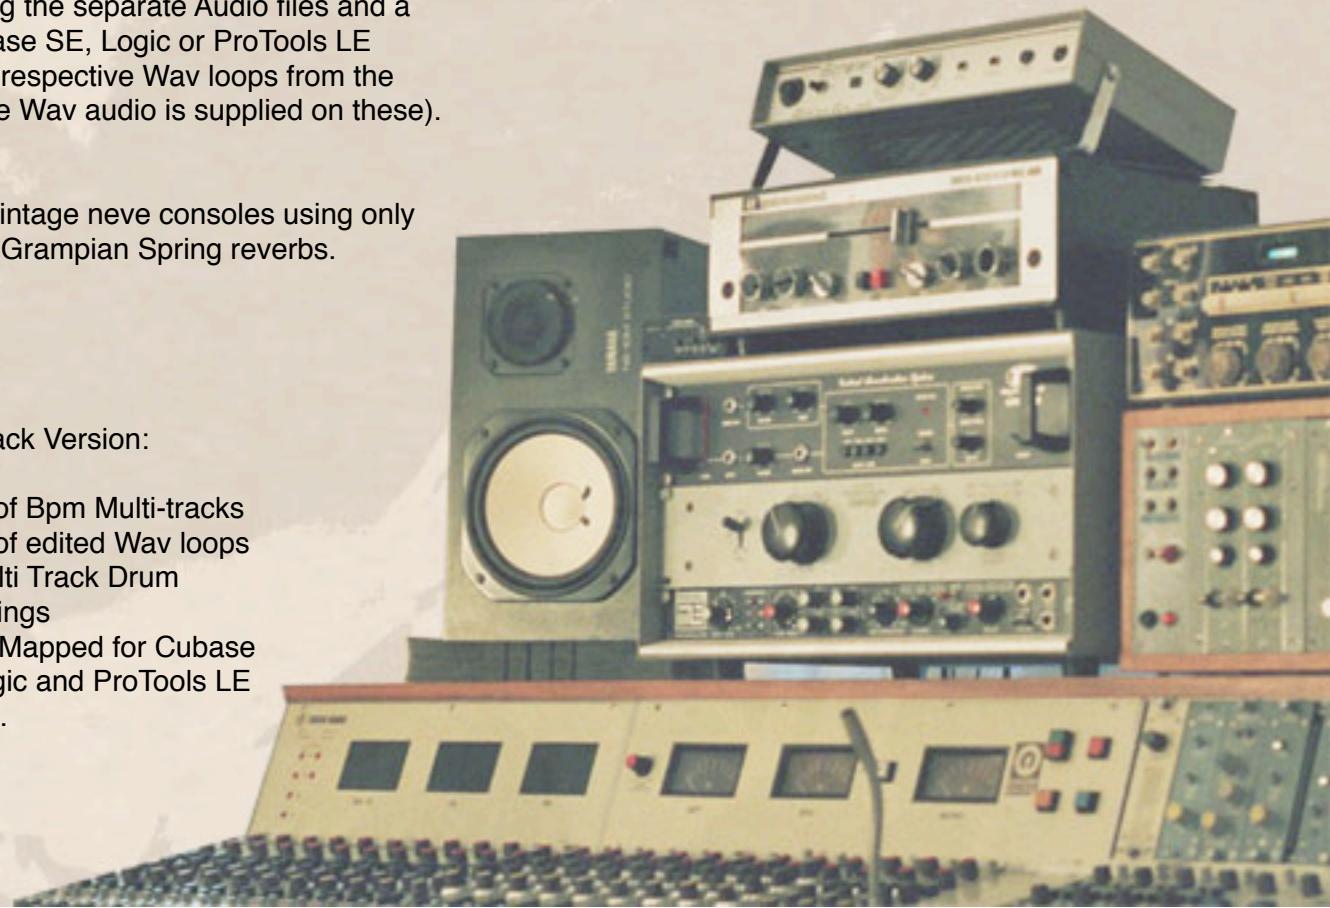

SPECS SUMMARY

Loop Pack Version:

- 2 Sets of Bpm loops
- 40 Apple loops
- 40 Acidized Wav loops
- 40 Rx2 loops
- 50+ Single Drum Hits

Multi-track Pack Version:

- 2 Sets of Bpm Multi-tracks
- 2 Sets of edited Wav loops
- Full Multi Track Drum Recordings
- Tempo Mapped for Cubase SE, Logic and ProTools LE formats.

THE TEMPO MAP

This is a unique feature only available to Drumdrops releases. The beauty of live drums is the feel you get from the swing and the drummer pushing and pulling in-between the beat. This is where the character lies, the vibe and soul of the groove.

Drumdrops have tempo mapped each drum performance to a 1/4 or an 1/8 of each beat. The sequencer follows accurately the tempo fluctuations of the drummer. This allows the user to play/program Midi data i.e notes, chords etc and make use of quantize as the sequencer is always locked with the live drums. This is very useful if you want to trigger drum machines like the Akai Mpc 60 (just sync via MIDI clock), or run Software like Reason or Ableton Live alongside ProTools, Logic or Cubase.

If you use an Audio Sequencer we don't support, don't feel left out as all you need to do is simply import the MIDI file provided into your sequencer as well as the audio files.

- Compatible with any software or hardware that supports 24 Bit files
- Tempo Mapped ProTools LE, Logic 6 and Cubase SE Session files
- MIDI files with tempo map info for importing to other DAWs
- Easy to use; all audio files start from the same point
- Supplied with previews MP3s for easy auditioning

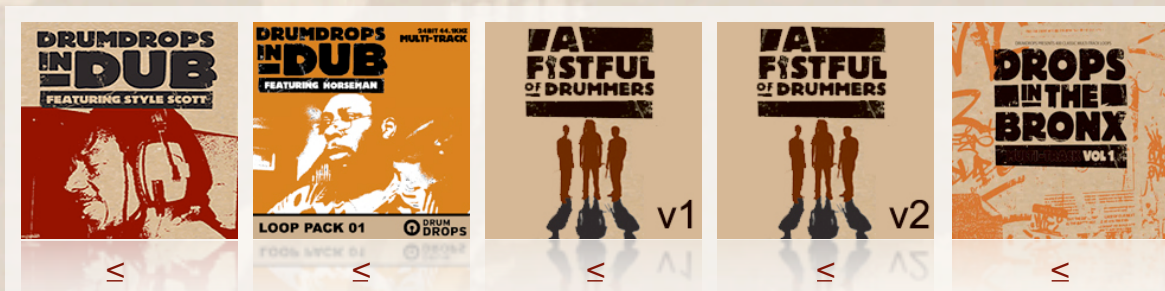

OTHER DRUMDROPS TITLES

Loopmasters want to combine the knowledge and experience we have gained to bring the great Drum Drops series of inspirational sample libraries to the masses, using the full width of our distribution base to make this the biggest selling drum series ever.

Here we have short-listed a number of what we consider to be some of their most prized drum collections, which we feel have something unique and potent about them. Drum Drops fans who respect their production style, and more importantly their ability to produce world class libraries will no doubt revere the other collections now available below.

Take a moment to check out these other great Drum Drops titles all available now through Loopmasters [here](#).

LICENCE AGREEMENT

Usage: You can use any of the sounds here in your own musical productions without paying any further fees to the Artist or to Loopmasters. We would like to stipulate that if you use a sample from this product in your work, that you credit the Artist and Loopmasters in the credits that you supply with your music. We would also like to appeal to your better nature when it comes to piracy, and please ensure that no third parties have access to your sounds, besides being a criminal offence it also means that musicians don't get paid for the music they create for licensed users such as yourself. Thank you.

Copyright/Licensing Notice: All Rights not expressly granted to the user are reserved. The sound samples on this compact disc are licensed, not sold, to you to be reproduced within your original musical compositions only. All copying, lending, duplicating, re-selling or trading of this product or its content is strictly prohibited. Only the original purchaser of this product has the right to embody and reproduce the enclosed sound samples within their music compositions. Use of these sounds in multimedia projects is limited to use within original musical compositions. Any other multimedia use of these sounds must be cleared with the producer of this product prior to release. This license is granted for a single user only (and is given on a worldwide basis). The licence is non-exclusive and is granted for the full period of copyright protecting and sound samples. You cannot electronically transfer the sound samples or place them in a time-sharing or service bureau operation or a computer/sampler network. Opening this product constitutes your acceptance of these terms. The demo songs contained on the CD remain the property of Loopmasters and you are not permitted to remix, re-release, or redistribute this demo material without written consent from Loopmasters.

YOUR FEEDBACK

Thank you for purchasing from Loopmasters. We hope you are happy with the products and service you have received.

We are always happy to hear from you, if you have issues with your order, feedback about the website, want to contact us about a library you have made, or about anything else you think we should know about. Simply send us your details and message to: info@loopmasters.com or use the website contact page [here](#). We will normally get back to you within 24 hours during the working week.
