*"Fans of filthy, crunchy drums will thrill to the LoFi Breaks and Organ Beatbox folders, both of which contain rhythms that are exquisitely distressed in all the right ways. Several percussion folders cover territory from shakers, tambourine, and conga, to reggae-tinged dub loops for those who actually do inhale."*, Keyboard Magazine

*"The 395 heavily processed flute, tenor sax, trumpet and Rhodes riffs, chords and effects were mind-blowingly cool-enough so that it made me say, "Screw the beats," and focus on creating some minimalist pieces. Other novel treats include vintage Organ Beatbox patterns, processed reggae-dub percussion loops for accenting the main beats and a wweekend's worth of single-instrument hits, chords, and riffs by key. But there's more! Beatmakers will get high stuffing their samplers with the 453 kicks, 300 snares, 96 claps and 341 hi-hats and other percussion . If weed-soaked dub floats your sub, check out this joint."*, Jason Scott Alexander, Remix Magazine
