

REX2XPANDER

4 GB LOOP LIBRARY - SPECIALLY FORMATTED FOR RMX AND REASON  
fully compatible with any other WAV and REX2 reading software - ProTools/Cubase/Logic/etc

# BREAKBEAT *jazz*

If you are into that weed smoking, turntable culture of HipHop, then go right ahead, jump into the crate diggin sounds of Breakbeat Jazz. Original sounding breakbeats, mixed up with vinylstyle rhodes chords, jazzy basses, FX.

2100 Rex2 loops and more than 3700 Wav loops & samples, all produced and recorded for Breakbeat Jazz. This is the ultimate Breakbeat collection for any Stylus RMX & Reason user! The Rex2 Xpander series is an intuitively organized library specially prepared and organized for use within Stylus RMX and Reason, but of course also works with any other WAV and Rex2 reading software; Cubase, Logic, ProTools.

*"This quite complete percussion collection is replete with kicks, snares, hi-hats, vinyl clicks and pops, bass guitar chords, congas, shakers, tambourines, and various other percussion and elements. The variety for each of the major elements is excellent. Not only is the rhythmic variety good, the actual drums themselves have a good diversity of sounds to boot. Mixing and matching various parts worked extremely well."*, Devon Brent, Recording Magazine
