

## Circuit Bent Sounds Vol. 2

Fresh from the electronic pandemonium of Bent Sounds Vol.1, Loopmasters return with another collection of bastardised electronics, twisted circuits, rewired technology and warped audio. Drum machines, synths and childrens toys have been assaulted, violated and pushed to the absolute limit, to create a collection of sounds completely unobtainable in any other way. Circuit Bent Sounds volume 2 includes a huge range of circuit bent samples suitable for Minimal, Tech, Electro, Techno, Industrial and Drum and Bass music producers worldwide.

The Loopmasters Circuit Bent Sounds and Samples series have been created in conjunction with Paul Norris of Circuitbenders.co.uk – a devoted expert at the art of circuit bending, and a signed recording artist in his own right. Recycling noise since 2001.

Circuitbenders was the first website in the UK offering circuit bent machines for sale alongside dozens of mods for electronic toys, drum machines, synths and samplers. Pauls machines are featured on music from artists as diverse as The Chemical Brothers and REM, along with hundreds of independent producers worldwide.

Volume 2 includes a huge selection of circuit bent madness including over 300 Loops and 470 single samples, along with 25 ready to play patches for Soft samplers including Reason NNXT, Halion, EXS, SFZ and Kontakt. You get 119 Drum Machine Loops, 140 Keyboard and Synth Loops, 44 Circuit Bent Toy Loops, alongside a comprehensive single hit selection incorporating 76 Drum Machine Samples, 132 Synth Sounds, and more than 250 bleeps, tweaks and glitches direct from Paul's huge collection of Circuit bent toys.

The machines used and abused to create this unique royalty free sample collection include drum machines such as the Alesis SR16, Frontline percussion synth, Korg DDD5 and MR16, the classic Mattel Synsonics, Roland TR727 and the Yamaha DD6. The Circuit Bent Keys and Synths include the Casio SA1, SK60 & SK200 samplers, Fraktal Noise Synth, Korg Poly 800, Purple Keys and the Yamaha VSS200. The Toys used include the analogue Beats Toy, ELC, Matchbox Talking Teacher, Mighty Borg Teddy Bear, Texas Instruments and VTech Talking Computer amongst many others!
