

**Save £5 Now!** buy this pack as part of our [Drum Machines 01](#) bundle.

**Electrik Drums** is the second in an ongoing line of products to be released through Wave Alchemy's Micro Pack catalogue. Offering over 450 samples from the highly sought after **Vermona DRM MK11** drum machine, Electrik Drums is a must have sample collection for anyone wanting to expand their drum-hit library with an array of authentic and absolutely colossal sounding analogue drum samples.

The DRM MK11 has been lovingly recorded through an API 512c pre-amp with a small selection of sounds being sonically enhanced using an Empirical Labs Distressor and various high-end SSL EQ's.

This product is suitable for use in any genre of electronic music and would be an excellent addition to any producer's arsenal.

#### **What's included in the sample pack?**

- Over 450 24-bit 100% royalty free DRM MKII drum samples
- 150 kick drums & subs
- 45 snare drum samples
- 65 hi-hats & toms
- 122 percussion samples
- 51 luxury claps
- 20 sound effects

At Wave Alchemy we don't compromise on quality and use only high end equipment ensuring everything is recorded in 24bit through high quality A/D converters.

#### **Kit List:**

- Vermona DRM Mk 11 Drum Machine
- API 512c pre-amp
- Empirical Labs Distressor EL8
- SSL E Series EQ
- SSL E Series Compressor
- SPL Transient Designer

**Please Note:** The sound effects included in the audio demo for this release are taken from [SFX Collection 01](#) and are not included within this product.
