Minimal Darq

Minimal Darq is a sound pack specifically designed for Minimal productions. The library consists of 610 Mb of worldclass construction loops, synth sequences, dark spacepads, glitch & grain loops, spectral voices, unusual percussive patterns and much more. The single loops are built around intelligent structures so that you can change the genre of your track simply by combining the loops from the different categories. The sound results can range from dark minimal to punchy electro or micro-tech, always characterized by an introspective, stylish and incisive mood.

In addition to the WAV loops and the related REX / Live Drum Rack versions, Minimal Darq provides hundreds of multi-format percussive and pseudo-percussive instruments that can be used to create your own breaks or that can be played as micro-synthesizers. All Minimal Darq elements are 24bit native WAV format, are meticulously edited, have an excellent dynamic range and guarantee the best audio quality.

Minimal Darq is copyright FREE and can be used for your music productions
