FUTURE GARAGE

Future Garage invites you to join the dots between 2-Step, Dubstep, Detroit and Dub Techno with a **heavyweight arsenal** of swung beats and sci-fi atmospherics.

Taking a cue from producers like Burial, 2562 and Martyn, this exclusive collection combines **cutting-edge 4x4 and 2-Step rhythms** (ranging between 132 and 138 BPM) with an **accomplished sonic palette** that will really get your creative juices flowing.

Swung kicks, shuffling hats, snappy snares and speaker-shaking bass are packaged together with Minimal and Techno-infused lead, chord and arp sequences, along with an **innovative selection** of haunting pads, spine-tingling sweeps and SFX plus a range of futuristic vocal stabs and cuts.

As always, *Push Button Bang* delivers exceptional, original samples that you'll enjoy using as the final 'icing' on your production or just dragging and dropping together to make professional sounding tunes from scratch.

Flash-forward your beats into the next millennium: start stepping into the future with *Future Garage*.

PUSH BUTTON BANG
