HOUSE BUILDS AND BREAKDOWNS

Create the perfect hands-in-the-air moment with *House Builds and Breakdowns*, a collection that is guaranteed to give your tracks the **crescendos and climaxes to destroy dancefloors** and lift crowds up, up and away.

This enormous compilation of special FX, melodies, tonal flourishes and rhythm loops has been created with just one thing in mind: helping you deliver explosive and unique drop points in your productions.

A massive **1.2 GB of content** gives producers, DJs and Ableton Live performers an almost unlimited amount of creative climactic possibilities. Manipulate single samples or blend loops together to **generate breakdowns on a small or epic scale**. Apply melody parts and tonal touches to add new colour to productions or use them as the inspiration for entirely new tracks... the choice is yours.

The **FX Based section** includes myriad drop FX and multiple layered, evolving crescendo FX to use separately or combine together for a **'wide-screen'** sound. A unique feature gives each 'build' a number of 'outs' at different bars, allowing you to decide just how much of the loop you want to utilize, while **all contain FX tails for truly seamless integration**.

The **Tonal section** features a multitude of melody and tonal components, alongside noise variations that create depth and transition. This section also contains 5 purpose-built Breakdown Kits, complete with MIDI parts, especially designed for crescendo formation.

The **Rhythm section** enables you to quickly add movement and energy with an assortment of noise

rhythms, pulses, drum builds and momentum underlays to push your drop to the edge.

Loops range from 2 to 64 bars in length, with tempos at 126 and 128 BPM. As you'd expect from a Push Button Bang release, all samples are in pristine, 24 bit quality, with root notes and tempos assigned on relevant material.

DJs and Ableton Live performers will be awed by this library's potential for creating additional movement in their sets, or the ability to uniquely remix, re-shape or lengthen tracks on the fly.

No matter what your style of House music, *House Builds and Breakdowns* is guaranteed to deliver **movement, suspense and explosion** with minimum fuss and maximum impact.

PUSH BUTTON BANG

TECH SPECS:

Overview:

- 1.2 GB content
- 24 bit / 44.1 khz WAV
- 385 WAV Loops and Samples
- 155 REX files
