

Garage and Bassline

Garage and Bassline from Loopmasters is a cool selection of bubbling bassline synths, 2 Step swing Beats and Heavy Dancefloor pressure cuts. These ready made loops will melt speaker cones and give your productions all the knowledge to master the low end of the audio spectrum.

Bassline house, or simply bassline, is a sub-genre of UK garage music that mixes elements of speed garage, 4x4 garage and R&B, and shares characteristics with fellow sub-genres dubstep and grime for their emphasis on bass.

Bassline still remained an underground scene in the north of England until the release of T2's single "Heartbroken" on Universal records, which attracted international attention, entering the music charts in several countries, including the UK singles chart where it reached #2.

The increased appeal of bassline may be in part due to the vocal contributions of artists such as Jodie Aysha. The lyrics of bassline are often focused on love and other issues that may be considered more feminine. The genre embraces femininity and may be able to express a wider range of emotion than other sub-genres.

Garage and Bassline is a great collection of over 300 Acidised Wav Samples, including Basslines, Drum Loops, Synth Parts, Fx, Vocals, Stabs and FX – so you have all the tools to create cone melting Garage and Bassline tracks.

This brand new and all original collection of Beats, Basslines and Sound FX from Mowgli is a must for anyone producing music destined for the Urban Dancefloor, whether you are making Dubstep, Grime, Bassline, Garage or House Music.
