## DANCE VOCALS TOOLKIT VOL. 1

Unlock killer hooks and vocal tweaks with the *Dance Vocals Toolkit Vol.1*: over 20 vocalists sliced, diced and processed into a one-of-a-kind, royalty-free library of **magical vocal samples for stand-out tracks**.

More than 1000 loops and one-shot cuts, stabs and FX: a diverse spread of rhythmic **vocal grooves, manipulated vox and otherworldly voices** for you to get ultra-creative with.

Loops move from 2 to 16 bars in length, with single, double and group voices represented, all at a standard 128 BPM. Many feature several rhythmic and/or FX changes for flexible use. Producers can drop them in whole or edit them to create multiple 'micro-loops' and textural repetitions; DJs and performers can vary loop points to **tweak pulsating vocal grooves on the fly**.

If you just need a single vocal cut to complete your rhythm you'll find hundreds of ready-to-go 'oohs', 'aahs', 'ays', 'dahs' and 'dohs', along with a staggering selection of stutters, stops and percussion-style shots. Also provided is a range of processed and dry phrase loops and spoken samples - from male and female voices - for injecting some **wicked wordplay**.

The main collection comes in pro-standard 24 bit / 44.1 khz WAV/AIF with **all loops and sounds keymapped to their root note and folders organised intuitively**, so you can find what you want, when you want.

The separate Ableton Live (8.2+) pack is equally user-friendly and includes **15 unique Remix Racks** that'll have you manipulating your own new sounds from the huge clip collection in minutes.

Whatever your style of electronic music, download the *Dance Vocals Toolkit* for **an easy way to add unique vocal samples** to your productions time and time again.
