

## Drum Drops In Dub Vol 2 Pack 3

Formats: Wav Acid Rex2 Apple Loops Multitrack GarageBand

Genres : Drums Dubstep Dub Reggae

Horseman has backed the biggest Reggae artists in the business; Max Romeo, Little Roy and many more. Percussion is played by Norman Grant (Twinkle Brothers) and Tuca Rainbow. Famous for his precision timing and fearsome delivery. Having worked alongside producers and engineers like Jah Shaka and Mad Professor has guaranteed his status both in the studio and on stage. Horseman rips into his favorite grooves from old Studio One classics to heavyweight Dub. This is the third instalment in a series of re-mastered sessions from Horseman which originally formed the complete Drumdrops in Dub volume 2 collection. Drumdrops in Dub Volume 2 – Loop Pack3, consists of 2 full dub drum Tracks played by Horseman as part of these sessions, which were recorded through full vintage neve consoles and using only authentic valve equipment including Vintage Orban and Grampian Spring reverbs (see Drumdrops website for more information). The samples in the pack are from two tracks of the session, originally recorded at 78 and 82 Bpm. There are 2 options to select when purchasing this pack – if you use Cubase, Logic, or Pro Tools you may choose to purchase the full Multi-Track version, which includes separate Kick, Snare, Hat, Toms, Overheads, Percussion and FX channels.: Includes tempo-mapped ProTools LE, Logic 6 and Cubase session files and tempo map so that you get unprecedented control of the Mix, EQ and overall sound just like you are the studio engineer at the session, make any mix changes and edits yourself! For those of you looking for easy to load loops and samples for Reason, Cakewalk, Sonar, Soft Samplers or Ableton Live etc – you should choose the Loop Pack which has a carefully selected batch of 45 Loops from the beats in Wav, Rex2 and Apple Loop Formats, alongside a selection of more than 55 carefully cut one shot drum samples, ready for you to program your own beats. Whatever format you choose, you will be getting the most authentic Reggae and Dub drumloops currently available in flexible formats so you can adapt easily in your software to fit the music you are working and get the real roots flavor captured in the most authentic fashion by one of the worlds best drummers in his style!
