Terra.Groove kicks things off with a diverse collection of world percussion kits for Ableton Live 6 & 7. Loads of exotic hits from every corner of the globe are included, opening up wealth of unique rhythm possibilities for use with our 3 new Rack Based Modules. Over a Hundred World and Ethnic Drum and Percussion Racks have been carefully assembled, drawing sounds from the indigenous drums of the Far East, Africa, Latin America and many more. And to make them extra expressive we've created a custom Flam Device for use with any of Lives Instruments . All Rack Modules have been optimized and streamlined to allow for fast load times while maintaining maximum flexibility and functionality. INCLUDED MODULES Rack Based Modules- Exotique Drum Module - MPT5000 Percussion Center - Manifold Beat Rack Exotique Drum Module - The Infinitely Expandable World Drum and Percussion Device for Live 6 & 7. Loads of ultra-sensitive, exotic sounds from every corner of the globe are included, opening up wealth of unique rhythm possibilities for this awesome sound module. Built in *Flam Module* adds subtle dynamics and movement to your grooves. For Further Flexibility, we have provided over 240 Hits as Rack Components, allowing users to quickly swap sounds and fully personalize Kits. Integrated Lessons and Videos included to demonstrate the open ended architecture of this great Module. Manifold Beat Rack - Where the organic gives way to the abstract. Gentle twists of macro knobs morph from acoustic to unworldly. These Kits contain the exotic and abstract sounds needed to spice up your rhythms and the macro controls and open ended nature of the Module allow for infinite exploration. Let go of your mouse, close your eyes, and let your ears guide you to create the perfect rhythm. Manifold Shell included to load up multiple instances of this Device in a single rack. Also, 140 Impulse Kits have been included for fast Hot Swapping of sounds. MPT5000 Percussion Center - You've probably figured out that this Module is a recreation of one of the greatest drum sampler-sequencers of all time. Well, Your right! We have spent countless hours comming up with a way to replicate some of the more enjoyable functions of the MPC using Live 6 & 7s Racks. Each MPT5000 kit has 32 one shots set up as Impulse kits- all conveniently mapped from C0-G2. Each Preset also has a/Roll Module which takes MPC style Roll functionality to new levels. PadKontrol, Akai MPD24, and TriggerFinger templates are also supplied for these Kits to get the ball rolling (pun intended) . The World Edition offers drum and percussion sounds from popular world instruments such c astanets, djembes, congas, tumbas, tablas, timbales, dumbeks and more. Drum and Percussion List - castanet, cuica, sassaru, shekere, agogo, china cymbals, gankoqui, gong, jing, wadora, dodompo, adondo, bata, blekede, bongo, caja, cajon, chango.
