

Nu Directions

Formats: Wav Acid Rex2

Genres : House Soul Deep House Funky House

Phuture Sound Of House is a respected and renowned collection of house samples and loops. It is your nu guidance into the world of smooth, jazzy, sexy signature deep house.

Over 2000 phunky, vibey house grooves and musical phrases, including 500+ 4-on-the-floor drum and percussion loops. Top that with 400+ music and bass loops filled with both soul and atmosphere. All are intelligently grouped into five different categories.

INSPIRATION KITSA unique mix of interactive loops, sounds, chords and music loops. Absolutely the best way to seek insight and knowledge of how producers create depth and inspiration in their house tracks

LOOPTOOLSLoads of drum loops, shaker loops, conga loops, drum loops with no kick, top loops with just hihats, etc. All loops matched to a few interactive BPMs, cut to an exact number of bars and acidised - making all loops compatible and creatively more useful in trying to build the perfect house groove.

MUSIC & BASS LOOPSA section of cool, funky, inspiring music and bassloops! How about some jazzy electric piano chords, maybe mixed with some warm smooth pads, or some funky jazz guitars, flutes and horns, then just add some deep funky basslines - got the picture? Again, all of these loops are matched to a few smart interactive BPMs, and just like the drumloops cut to an exact number of bars making them easy and quick to use.

SOUNDTOOLSa massively huge folder of flute and trumpet samples, electric piano jazz chords and hundreds of drum & percussion samples for adding beats and flavors to your nu arrangements.

XCLUSIVE ACIDTOOLSa unique folder of acidised drums samples (Kick, snare, clap, hihat and shaker samples), edited to loop, just like the LOOPTOOLS loops- now you can finally preview a kick, hh or a clap all in sync with your current arrangement (only works effectively within programs that can preview acidized .WAV files in real time).

Tech Specs:

Over 2000 samples and loops

5 intelligently divided folders

Compatible with most modern audio programs
