

Tech House Synth Loops

Formats: Wav Rex2 Reason Refill Ableton Live Pack Apple Loops MPC

Genres : House Tech House Progressive House

Following on from the best-selling 'Tech House Drum Loops' release, we are extremely proud to present one of our hottest producer packages yet... Tech House Synth Loops has arrived with an addictive blend of over 150 tearing synth riffs hand-crafted and mastered to perfection for enhanced production workflow.

This piping hot release is drenched in an electrifying selection of styles including Tech, Progressive, Electro, Funky, Main Room, Swingin,'s Flithy and Jackin House. A perfected song-writing package with an upfront master-mix of production tools set to take you on a direct route to the clubs. Each individual loop has been executed with synthesised precision via Pro Tools TDM, and compression supplied by the outboard TL Audio Ivory Valve. Only the most current, up to date sounds have been used to deliver this release. Analogue Synthesizers such as the Nord Lead, Mopho and Korg Prophecy have all made an appearance, giving a full bodied, authentic sound heard in today's hottest tracks.

Artist such as Mark Knight, Deadmau5, Bingo Players, D Ramirez, John Tejada, Jakarta, Laurent Garnier and many more have played a great role in the influence of this sample pack's production, and we are confident that you will find this collection extremely rewarding when applied to the mix

The author behind this release is Scott Tonic. A highly skilled producer and engineer who is well known and respected by labels and producers alike. Here he has showcased his ability to create a broad range of styles in keep with the current evolving music scene.

'I wanted to give a selection of 'ready to go' loops with a more complete feel, with percussion, glitches, white noise and reverbs already added - which you can easily drop into your track for instant inspiration, as well as allowing maximum flexibility by including other loops with their individual broken out elements for more complex track building. All of the loops are at 128bpm and key information is provided for easy mixing and matching of the 150+ loops in the pack, giving even more creative possibilities. In addition, this pack is completely compatible with Tech House Drum Loops, a pack I also made at the same tempo, and used during the making of this one.'

We are proud to present our latest club-ready collection destined for the airwaves, delivering the true sound of the moment, and an essential collection for any discerning Future House Producer in the scene today. If you are looking for fresh, dancefloor-ready sounds – this release cuts to the

chase and will deliver maximum impact every time.
