

Real Strings

Formats: Wav Acid Rex2 Apple Loops GarageBand

Genres : Downtempo Electronica Hip-Hop House Rock Trance
Disco Strings

Real Strings from Organic Loops is the brand new samplepack of stellar quality loops by Pete Whitfield. These authentic samples were recorded in Pete's studio where he records real strings for major labels, TV companies and radio/media companies as a highly sought after arranger.

Not only does this collection boast the most inspiring chordal progressions, it delivers full string loops with breath-taking, epic results that you couldn't possibly recreate. Along with these massive resonating sounds, there are stripped-back versions giving you the option to mix and match for what is suitable for your production.

From soaring melodies to rhythmical stabs, heart wrenching to uplifting and for those who like to get more creative, there are also stand-alone chords for you to make your own progressions.

With tempos ranging from 90-126 beats per minute, there are 116 Wav loops available for a variety of genres. There are 32 loops available as REX, and 116 as Acid Wavs and Apple Loops.

The 'Real Strings' collection has the ability to connect to the soul with bona fide honesty and is guaranteed to make your production come alive. If you're looking to mix orchestral strings into your latest production, whether it's Hip Hop, Chillout, or Electro, then this sample-pack will certainly inspire.

Credits from the realstrings studio include artists and producers Future Cut, Rhymefest, Zed Bias, Ken Lewis, Judas Priest, The Christians, Candi Staton, Heather Small, Mr Scruff. Media composers include Simon May, Ian Livingstone, Richard Mitchell, Simon Brint and Richard Jacques.
