Genres : Electronica House Techno Deep House Minimal House Tech House Progressive House

Anil Chawla & Dale Anderson have become one of Global Underground's most recognised production outfits, so it only seemed natural to call on them to put together a brand new collection of samples for the exclusive launch of the much anticipated Loopmasters GU Series. The package is a clear reflection of the duo's signature sound, exploring the deepest, darkest depths of house, to the more uplifting, summery vibes, to the downright dirty techno-funk that gets the dancefloors shaking. Forming the label's frontline infantry, Anil & Dale have built an enviable reputation as producers of straight up, no-nonsense house music magic, and have won plaudits and respect, the world over counting Sasha, Nick Warren, Hernan Cattaneo, Laurent Garnier, Nic Fancuilli and many others as supporters of their sound.

Two time Beatport Award nominees with a truly international following, they're a fine example of the UK's current electronic renaissance and this multi-faceted package incorporates all the best elements of their signature sound. An attention to detail has ensured that the sounds work individually or together as a cohesive unit, with many levels of interchangeably.

The sounds have been layered, filtered and processed to give full texture and rich colour, but still maintain the illusion of simplicity, making them extremely user friendly and easy to manipulate or re-work.

The collection is neither trendy or pretentious, it's just how it should be - good, solid house.

The Global Underground Sample Series is an expanding collection of sample packs created by GU Artists in conjunction with Loopmasters. Two assurances of quality and inspiration - watch out for more great titles coming soon!
