With this release Mutekki Media particularly serves the demand of the new generation of digital artists who are using Ableton live or looking for options to enhance their Final Scratch set with extra patterns. Also users of software or samplers like Logic (EXS), Reason, Cubase, Cakewalk or Fruity Loops will find this sample compilation extremely useful and inspiring.

"Everything sounds edgy and full of flair. Generally, the grooves are as funky as they come, the stereo image is wide, the bottom-end is solid, the high-end is sweet and there's a particular authenticity.

Aliloops are at house tempos 125 and 128bpm." - Computer Music
