Fidget House 2 is the sequel to the much praised debut release from Darren Payton, whose production skills impressed us so much we had to sign him for a second volume. His production of glitched out, funky and washed out house beats, alongside those heavy hoovered, sidechained and warped basslines hit the spot every time and have warranted all the enthusiastic emails we have had from Fidget House producers worldwide looking for more sounds from the Payton studio – well here they are people! Artists such as Trevor Loveys, Herve, Fake Blood, Digital Filth, Switch and Jack Beats have exaggerated the initial elements of fidget and progressed things on to new levels which make this genre more challenging from a production perspective and perfect for the dance floor as the mash up medium of choice for many producers and clubbers worldwide in 2010. This pack is even bigger than the first one and we are sure that even producers of Minimal, Electro, Tech and Jackin House music will find plenty of sonic ingredients to add to their mixes for inspiration and solid dance floor friendly grooves. Featuring over 950 Fidget House Samples, this is a masterful and innovative sample pack including 67 Heavyweight Cone Wobbling Basslines, 35 Slick and Glitchy House Drumloops, 122 Broken Band Glitch Loops, 35 Groove Clicks, 75 Top Loops, 46 Filtered Music Loops, 18 Synth Loops, 9 Bleeps, 20 Sweeps, 28 Twisted and Broken Vocal FX, 22 Bass Stabs, 35 Vox Stabs, 53 FX Stabs, 5 Drum Kits plus more than 300 Single Drum Samples ready for making your own Fidget House Beats! The pack is also available in Apple Loops format and comes with an additional 31 ready to play patches for Reason NNXT, Halion, Kontakt, EXS and SFZ samplers, including 18 Bass Patches, Drum Kits and FX. If you are looking for Glitched out beats, Processed Stereo Vocals, Heavyweight Basslines and Techy and Progressive Musical Loops, check out the Fidget House 2 from Loopmasters! Computer Music Review:

Loopmasters have really hit the mark with this unique, authentic and utterly cool release.

Fidget House 2 boasts a wide range of sounds, from drumloops to 'broken band' samples. True to the genre demarcation, almost every loop has a degree of movement and scattiness to it and there's some really clever, ear catching sound design happening.

Oh, and the multis exude quality too. There are some very original sounds here and the audio quality is great!
