

Sound Theory 01 Habersham

Formats: Wav EXS

Genres : House Techno Tech House Progressive House Breaks
Electronica Deep House

To create SoundTheory 01, Habersham spent countless hours sculpting and mastering over 670 MB of awe-inspiring, genre-transcending sounds.

He specifically engineered this cutting-edge collection to work perfectly in both the studio and live performances. Whether you're producing house, techno, breaks, drum and bass, or any other genre of electronic music,

SoundTheory 01 will inspire you with Habersham's finely-crafted assortment of loops, samples, and drum kits.

Note: All SoundTheory 01 samples are royalty-free and ready for unrestricted use in your original productions! The complete SoundTheory 01 collection features over 80 individual drum hits, fully equipped with pre-made Battery and EXS24 drum kits.

It also contains nearly 200 drum and synth loops (ranging from 60 to 160 bpm); 30 effects and ambient sounds; 20 pads; and 30 bass and synth stabs — all formatted as 24-bit, 44 kHz WAV and AIFF files.
