Inspired by the sublime sonic works of Minilogue, Slam, Damian Lazarus, Marco Dassi, Radio Slave and Layo & Bushwacka amongst others, 5PIN MEDIA proudly presents MINIMAL TECH VOL1. Minimal Tech is here to stay and has evolved into one of the biggest most successful genres incorporating influences from Techno, Tech House, Tribal House, Deep House and has seen the rise of Labels such as Get Physical, Cocoon, and Poker Flat into the mainstream.

So get ready for some Pulsing Bass, Heavy Swung Grooves and Stark Synths all fuelled by the unique 5Pin Media formula of MIDI, samples and loops designed to give you maximum control of your minimal productions.

All of the sounds have been expertly crafted, moulded and captured in pristine 24 bit audio using a blend of original analog synths, drum machines, outboard processing and high end plugins. Accompanying the sounds are over 500 meticulously programmed MIDI loops at 126 bpm for maximising the use and arrangement of the sounds and any MIDI drum machine, synth, sampler in either hardware or software form. A generous dose of groove has been applied to the MIDI and loops to capture the essence of the Minimal scene and to avoid stale over quantised patterns. Included is a folder of custom made Groove Templates giving users the option of applying alternative grooves.

Minimal Tech includes: 182 loops in Acidized Wav and Rex2 formats plus over 250 Drum hits, 70+ GENERAL MIDI mapped soft sampler patches, ( Live7+, Kontakt 3, NNXT, Halion, EXS24 and SFZ formats), incorporating 16 Drum Groove Kits and a staggering 500+ MIDI files giving you the most versatile Minimal Tech pack out there!

The audio loops in this pack have been intentionally lightly processed leaving enough room for you the producer to add your own unique touch. From the 5PIN mission control room - keep the grooves flowing and ENJOY!
