Prodigious talents of the Anglo-Italian duo Egostereo (Sandrino Beesley & Danny Minkella) have emerged in 2009 as one of the hottest groups in progressive/techno with releases on Renaissance, Big Love and Audio Therapy, gaining support from heavyweights such as SASHA, PAUL VAN DYK, TIESTO, DIGWEED, ARMIN VAN BUUREN, DAVE SEAMAN to name a few. They have a number of very big releases ahead remixing names like Paul Harris, Yves Larock, Tommie Sunshine, Dirty Vegas, Sultan, Dave Seaman and hitting labels like Ultra, Toolroom and GU of course.

The boys produce a very defined style of music that has found its way into such esteemed record boxes because of the quality of the production values that permeate every part of their studio work. Their music goes through many genres creating a unique sound called Egostereo. Egostereo perform a strong four hands Live Act that is quite unique in terms of energy, equipment and sound innovation.

 For this sound library Egostereo put together a completely new style of groove elements that clearly underline their ability and love for experimentation.

 Powered by Access Virus TI, Clavia Nord Modular G2, Moog Little Phatty; the result is a very huge sample library made of 360 drum loops, 140 bass loops, 140 synth loops and 80 top loops plus a large number of single hits completing probably the largest library of the artist series up to now.

Please Note: When selecting the appropriate download version for your requirements the Zip (Main) format includes Acidised Wav and Rex2 Loops – all single (non looping) sounds and Sampler Patches for Kontakt, Halion, Nnext, Exs24 soft samplers. Reason Refill, Ableton Live Packs and Apple Loops are not included, and must be purchased where available as a separate downloads. Apple Loops packs also include any single hits and EXS patches where applicable. If in doubt we recommend you purchase the Zip(main) format which is usable with nearly all music applications and software.
