We are proud to introduce Pure Trance Drum Hits - a collection of one-shot samples for those perfectly balanced trance beats.

No trance drum loop is finished until the snappy tight snare or clap is introduced, it's amazing to know what one sound can do to a room full of clubbers stomping their ground. We all know these snare & clap sounds are an intrinsic part of a trance production and that's why we spent a long long time getting this collection exactly right. Snapping, clapping and decaying in just the right places to seamlessly fall into your trance rhythms,

Want your drums to sound as tight, powerful, punchy and driven as much as Tiesto, Armin, Ferry, Marco V, Cosmic Gate and the rest of the elite trance team, then look no further. The Kick Drums in this collection provide you with an extremely high grade collection of trance kick drums which took a long while in our studio to create. With 100+ trance kick drums in this pack it is one of our best value sets money can buy and a drum set no serious trance producer should be without.
